

Bringing education and the real world together

Your students can now use Xello to deepen their career exploration efforts by exploring companies that are thriving in their community, and getting first-hand advice and mentorship from local career coaches.

Explore companies in the community

Students can access a quick list view of local companies by clicking on *Explore Options* in the top navigation, and then clicking on the *Companies* card.

Seek career mentorship and advice

Easily accessible from both company and career pages, students will use *Huddles* to post relevant questions and seek mentorship from career coaches and company representatives.

Get the insider view of a company

By clicking into a company's profile, students will learn about what the company does, where they're located, and the types of careers they offer.

Gain real-world experience Coming Soon!

Students will be able to view work-based learning opportunities offered by local companies (such as job shadows, tours, internships, etc.) and submit requests for participation.

Want to preview the student experience? Log in to Xello and use your *Demo Student* account to explore *Companies* and *Huddles*.
